

# Curriculum Map PSHE

**Intent**

Our intention is that when children leave West Heath, they will do so with the knowledge, understanding and emotions to be able to play an active, positive and successful role in today's diverse society. We want our children to have high aspirations, a belief in themselves and realise that anything is possible if they put their mind to it. In an ever-changing world, it is important that they are aware, to an appropriate level, of different factors which will affect their world and that they learn how to deal with these so that they have good mental health and well-being.

Our PSHE curriculum develops learning and results in the acquisition of knowledge and skills which will enable children to access the wider curriculum and prepare them to be a global citizen now and in their future roles within a global community. It promotes the spiritual, moral, cultural, mental and physical development of pupils, preparing them for the opportunities, responsibilities and experiences for later life. Our Relationships and Sex Education enables our children to learn how to be safe, and to understand and develop healthy relationships, both now and in their future lives.

**Implementation**

EYFS - In the Foundation Stage, PSHE and citizenship is taught as an integral part of topic work and is embedded throughout the curriculum. The objectives taught are the Personal, Social and Emotional Development statements from 'Development Matters in the EYFS' and the PSED Early Learning Goals. Reception also uses the Jigsaw Scheme of Work materials. (see below)

Key Stage 1 and Key Stage 2 - At Key Stage 1 and 2, PSHE is taught through a clear and comprehensive scheme of work in line with the National Curriculum. We ensure we cover the Health and Well-Being, Relationships and Living in the Wider World Learning Opportunities set out in the PSHE Association's Programme of Study, which comprehensively cover the statutory Health Education and Relationships Education guidance.

At West Heath, in addition to Relationships Education, we also teach aspects of Sex Education that is covered in our Science Curriculum. Alongside this we teach about different kinds of relationships, including same sex relationships, and gender identity because it is important that our children should have an understanding of the full diversity of the world they live in and be prepared for life in modern Britain.

**Impact**

By the time our children leave our school they will:

be able to approach a range of real life situations and apply their skills and attributes to help navigate themselves through modern life

be on their way to becoming healthy, open minded, respectful, socially and morally responsible, active members of society

appreciate difference and diversity

recognise and apply the British Values of Democracy, Tolerance, Mutual respect, Rule of law and Liberty

be able to understand and manage their emotions

be able to look after their mental health and well-being

be able to develop positive, healthy relationship with their peers both now and in the future.

understand the physical aspects involved in RSE at an age appropriate level

have respect for themselves and others.

have a positive self esteem
